Xpoint announces Worldwide Fulfillment of Autonomic Managed Recovery® solutions for US, Asia Pacific and European Languages

BOCA RATON, FLORIDA

-- **May 28, 2003** -- Xpoint Technologies announced today its new suite of Autonomic Managed Recovery Solutions for US, European and Asia Pacific countries. The solutions will be generally available within 30 days.

Whether purchased from Xpoint directly or via one of its business partners, these products are available in any of 16 languages, through a worldwide fulfillment system. Asia Pacific languages now include: Chinese, Simplified Chinese, Korean, and Japanese. North American and European languages now include: English, French, Italian, German, Spanish, Russian, Polish, Danish, Swedish, Norwegian and Dutch.

“We continue to expand the availability of our products and services to enable our multi-national customers to implement our solutions enterprise-wide. By adopting and implementing Autonomic Managed Recovery, our customers recognize a significant reduction in IT service and support costs, while maximizing uptime for the IT staff and end users, as well as protecting valuable corporate information assets. By providing additional native language support, the corporate help desk can now leverage Autonomic Managed Recovery across the enterprise, without language barriers.” said Frank Wang, President and CEO of Xpoint Technologies.

There are eight product and services offerings included in this release:

Autonomic Managed Recovery (AMR) Solutions:

- **Rapid Restore™ PC Solution powered by Xpoint**, One-Button Restore™ image and data recovery solution for other PC platforms.
- **Rapid Restore™ PRO Solution powered by Xpoint**, One-Button Restore™ image and data recovery solution for power users and remote workers that maximize uptime including support for one's USB or removable drives.
- **Rapid Restore™ Server Solution powered by Xpoint**, One-Button Restore™ image and data recovery solution for servers.
- **Rapid Restore™ Enterprise Solution powered by Xpoint**, a workgroup Managed Recovery solution that centralizes IT control for the needs of small, medium and large enterprises.

Xpoint Managed Recovery Services:

- **Tiger Team**, a dedicated team of Managed Recovery consultants who will provide design, validation and training services to implement Rapid Restore™ in conjunction with IBM UM services across large enterprises.
- **Validation and Verification Services**, designed to assist the enterprise to incorporate Rapid Restore™ and extend the solution suite as part of the Standard Operating Environment (SOE), thus ensuring a quick Return on Investment (ROI).
- **Extended Maintenance Service Plan**, after the standard warranty of 30 days up and running support expires, the extended maintenance and support service plan provides for extended warranty, bug fixes, service packs, updates to the same version and premium telephone support.

About Xpoint

Xpoint Corporation is the leader in client disaster recovery and business continuity software. The company's award-winning Uptime!TM data management software dramatically improves ROI and increases the life of PC's and Laptops, thus lowering the total cost of ownership and maintenance.
